Safe Harbor Statement – Forward Looking Statements

Certain statements in this presentation, other than purely historical information, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These statements include, but are not limited to, LivaNova's plans, objectives, strategies, financial performance and outlook, trends, the amount and timing of future cash distributions, prospects or future events and involve known and unknown risks that are difficult to predict. As a result, our actual financial results, performance, achievements or prospects may differ materially from those expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by the use of words such as "may," "could," "seek," "guidance," "predict," "potential," "likely," "believe," "will," "should," "expect," "anticipate," "estimate," "plan," "intend," "forecast," "foresee" or variations of these terms and similar expressions, or the negative of these terms or similar expressions. Such forward-looking statements are necessarily based on estimates and assumptions that, while considered reasonable by LivaNova and its management based on their knowledge and understanding of the business and industry, are inherently uncertain. These statements are not guarantees of future performance, and stockholders should not place undue reliance on forward-looking statements. There are a number of risks, uncertainties and other important factors, many of which are beyond our control, that could cause our actual results to differ materially from the forward-looking statements contained in this press release, including those described in the "Risk Factors" section of Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, the Registration Statement on Form S-4 and other documents filed from time to time with the United States Securities and Exchange Commission by LivaNova.

The Company does not undertake or assume any obligation to update publicly any of the forward-looking statements in this presentation to reflect actual results, new information or future events, changes in assumptions or changes in other factors affecting forward-looking statements, except to the extent required by applicable law. If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements. We caution you not to place undue reliance on any forward-looking statements, which are made only as of the date of this presentation.

All numbers may be rounded for presentation purposes.

VNS: Leveraging the technology A universal platform is the foundation for additional indications

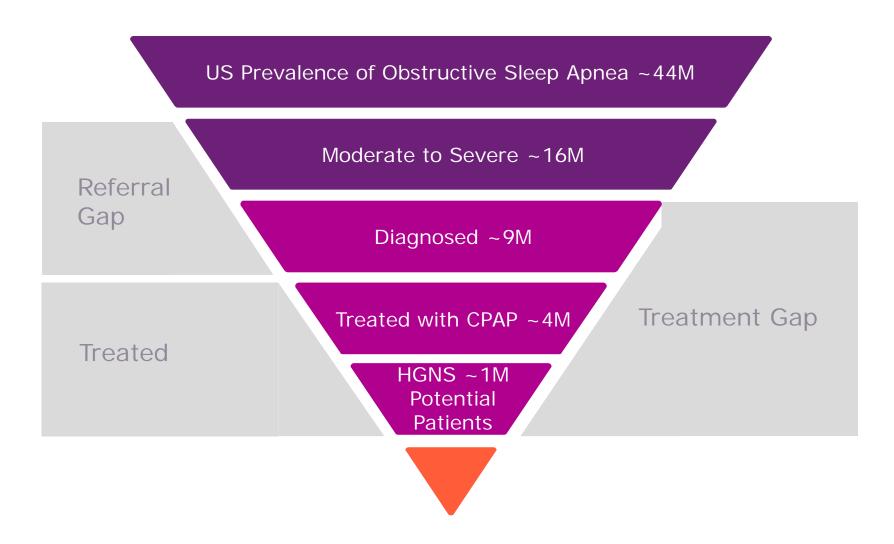

Implantable Therapy for Obstructive Sleep Apnea (OSA)

Obstructive Sleep Apnea (OSA) is a disorder in which breathing repeatedly stops and starts due to the throat muscles relaxing and blocking the airway during sleep

Significant unmet clinical need for the approximately 40-50% of OSA patients who stop or refuse CPAP

Obstructive Sleep Apnea - ImThera Rationale

Market Potential	 Opportunity to disrupt current treatment paradigm and fill significant unmet clinical need for new therapy: 50% of OSA patients stop or refuse CPAP U.S. CPAP market estimated at \$4 billion annually, growing low- to mid-double digit
Portfolio Synergies	 Good strategic fit: Neuromodulation therapy with ENT call point Expands neuromodulation product portfolio
Leverage of Existing Infrastructure	 Proven market development capabilities in Neuromodulation Global commercial network Global R&D, regulatory and supply chain capabilities
Technology	 Differentiated technology with small IPG, single lead and easier implant procedure ImThera device second to gain CE Mark approval and minimal competitors on the horizon: Expected FDA submission by end 2019/early 2020
Financial	 Meets IRR & ROIC hurdle with shared risk on regulatory approval and sales milestones
