

2Q 2022 FINANCIAL RESULTS

Financial Summary ¹

	2Q22	2Q21
Net Sales, Excluding Heart Valves ²	\$254M	\$250M
Adjusted Gross Margin	69%	69%
Adjusted Operating Margin	13%	14%
Adjusted Diluted EPS	\$0.53	\$0.50

"We delivered revenue growth in the second quarter, excluding foreign currency headwinds, driven by our Cardiopulmonary and Neuromodulation businesses. Based on our first-half performance, we now forecast higher full-year revenue growth on strong demand in Cardiopulmonary. To reflect the impact of foreign currency and increased supply chain pressures, we now expect lower adjusted earnings and free cash flow."

- Damien McDonald, CEO of LivaNova

1) Adjusted financial measures including net sales, excluding heart valves, are non-GAAP measures and exclude specified items as described and reconciled in the "Reconciliation of GAAP to non-GAAP Financial Measures" contained on the back of this document. In addition, see the section entitled "Use of Non-GAAP financial measures" in the 8-K furnished with the SEC on August 3, 2022, which is available on our website. 2) Amounts exclude the impact of the Heart Valves business that was divested effective June 1, 2021. Additionally, percentages by segment exclude "Other" sales. 3) Unless otherwise noted, all sales growth rates in this document reflect constant-currency sales growth, which eliminates the effects of foreign currency fluctuations. Constant-currency growth, a non-GAAP financial measure, measures the change in sales between current and prior-year periods using average exchange rates in effect during the applicable prior-year period. 4) LivaNova calculates forward-looking non-GAAP financial measures based on internal forecasts that omit certain amounts that would be included in GAAP financial measures. For example, forward-looking net sales growth projections are estimated on a constant-currency basis and exclude the impact of foreign currency fluctuations. Forward-looking non-GAAP adjusted diluted earnings per share guidance exclude other items such as, but not limited to, changes in fair value of derivatives and contingent consideration arrangements and asset impairment charges that would be included in comparable GAAP financial measures. The most directly comparable GAAP measure for constant-currency net sales, non-GAAP adjusted tax rate and adjusted diluted earnings per share are net sales, the effective tax rates and earnings per share, respectively. The most directly comparable GAAP measure for adjusted free cash flow is net cash provided by operating activities. However, non-GAAP financial adjustments on a forward-looking basis are subject to uncertainty and variability as they are dependent on many factors, including but not limited to, the effect of foreign currency exchange fluctuations, impacts from potential acquisitions or divestitures, the ultimate outcome of legal proceedings, gains or losses on the potential sale of businesses or other assets, restructuring costs, merger and integration activities, changes in fair value of derivatives and contingent consideration arrangements, asset impairment charges and the tax impact of the aforementioned items, tax law changes or other tax matters. Accordingly, forward-looking GAAP financial measures and reconciliations to the most directly comparable forward-looking GAAP financial measures are not available without unreasonable effort. 5) Worldwide net sales growth including the Heart Valves business, which was divested effective June 1, 2021, is expected to be between 1-3%. 6) Excluding the impact of the Heart Valves divestiture. *Numbers may not add precisely due to rounding.
